

Parent Input for Classroom Placement
(For students entering 1st and 2nd Grades)

Much care is given to assigning students to classrooms, in a manner that assures all students the greatest opportunity for a successful school experience. There are several considerations for a balanced classroom which will best serve the needs of all concerned:

- Academic level of the student
- Social style and maturity
- Learning style of the student
- Teaching style of the teacher
- Gender (male-female ratio)
- Primary language
- Student's special needs
- Leadership

What seems relatively simple when done one child at a time, becomes complicated when trying to balance a classrooms of 24+ students. The classroom teacher is probably the best expert on a child's placement. **Please do not make specific teacher requests.**

My child's learning needs include: (please address how your child best learns- quiet, structured environment, movement, etc...)

My child excels at:

My child needs extra help with:

I would like you to also consider the following:

I understand that every effort will be made to honor this request. However, I realize that changes in teaching assignments, changes in teachers, balancing of class size and other related factors could be cause for my request not being honored. **I also understand that the principal will make all final decisions regarding classroom placements.**

Child's name _____ Present grade level and teacher _____

School Attending Next Year _____

Parent's Signature _____ Phone Number _____ Date _____
